Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have a history of cancer, and the NATURAL hormones I take can only be provided in another state. When a doctor prescribes a certain medication for their patient, that is the medication they should be allowed to have. The doctor was done a thorough examination in order to make his/her determination for a certain Rx. Often, those who make the decisions regarding the health of others have no concept of patient needs.
